About Fioro

THE HOUSE

Inspired by Italian heritage, Fioro draws from a tradition of creativity, craftsmanship, and innovation. That influence can be seen throughout the house, from the sculptural lines of its jewelry to the refined character of its mechanical timepieces.

For Fioro watches, Italian design is paired with Swiss watchmaking, combining refined Italian styling with precise mechanical engineering.

Fioro carries the same philosophy across fine jewelry, custom creations, and signature pieces. Rather than focusing on volume, the house selects and creates pieces for their character, detail, and lasting presence.

Fioro also takes a more personal approach to luxury. Clients are introduced to the house through private access and dedicated representatives, creating a more personal way to discover, select, and commission exceptional pieces.

From the Oltre La Vita collection to one-of-one custom work, every Fioro piece is designed to become part of a collection, a memory, and treasured for years to come.

That commitment continues through dedicated client support and a three-year limited warranty.

ITALIAN DESIGN. SWISS WATCHMAKING. PRIVATE LUXURY.
